15) GDPR POLICY
GDPR stands for General Data Protection Regulation and has been enhanced to protect the personal data of European Union (EU) citizens. The responsibility is on organizations to not only secure this data but get consent for collection of data and delete it upon request. GDPR may be in place for the security of EU citizens, but any business that collects data of EU citizens must comply with these laws (e.g. VMUG). The enhanced privacy regulations for European Union citizens is a best practice that VMUG will apply for all organization members.
